Administrator Lisa Jackson  
1200 Pennsylvania Avenue, N.W.  
Washington, DC 20460

Dear Administrator Jackson,

The letter below is a bunch of crap. Global warming and cooling are caused by sun cycles. Stop worrying about CO2 and worry about LEAD MERCURY, and CADMIUM. Worry about clean water. Global warming is a scam to create a new commodity and a new market to trade it in. Enron came up with Cap and Trade. Don't fall for it.

I am writing to express my strong support for your recent finding that global warming pollution poses a threat to public health and welfare. This assessment is grounded in sound science that is based on decades of research. I applaud you for exercising your authority under the Clean Air Act to take action to protect us from the pollution driving global warming.

As the government agency tasked with protecting human health and the environment, it is essential that you take swift action to reduce dangerous global warming pollutants once and for all.  
Thank you.

Sincerely,  
Ted Ferguson
